Untamed at heart

A new 5-star resort is taking shape, blending modern elegance with vibrant lifestyle amenities.

Inspired by the graceful branching of a banyan tree, The Wylder's design weaves nature into every corner—its façade, corridors, and terraces forming a living tapestry of light, shadow, and greenery. Sustainably sourced materials and a grounded structure create harmony with the streetscape, while open-air walkways and quiet green pockets invite pause and reflection. An elevated, poetic rhythm of life rooted in place.

THE LOCATION

Nestled along Bali's southwest coast, Berawa has quickly transformed into one of the island's most sought-after destinations.
